

YASHPALSINGH PAWARA

+91-9359028987 | yashpalsinghpawara@gmail.com |  Yashpalsingh-Pawara |  yashu1412 |  Portfolio
Jabalpur, Madhya Pradesh – 482005, India

Education

- **IIITDM Jabalpur** Nov 2022 – Aug 2026 (Expected)
B.Tech – Electronics and Communication Engineering Jabalpur, India
- **Kendriya Vidyalaya Sangathan** Aug 2020 – Jul 2022
Higher Secondary Education (CBSE) PCMB Dhule, India

Experience

- **Testbuddy Education Pvt Ltd** Jun 2025 – Jul 2025
React.js Developer Intern
 - Engineered **college prediction tools, interactive tests, blogs, and responsive web pages** using **React.js** and **Next.js**, designed to handle **50K+ users** with optimized cross-device compatibility.
 - Enhanced UI/UX and frontend rendering while integrating **REST APIs** and **Docker**-containerized apps, boosting engagement and load speed by **20–25%** with a smooth, responsive experience.

Skills

- **Programming & Core Concepts:** JavaScript, TypeScript, C++, Python, System Design (Basics)
- **Frontend & UI Engineering:** React.js, Next.js, TailwindCSS
- **Backend & API Development:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases, AI & Infrastructure:** PostgreSQL, MongoDB, SQL, OpenCV, Docker, Git/GitHub, Postman

Projects

- **Weavy – Visual Workflow Builder for LLM Automations** Feb 2026
Tools: Next.js v16, TypeScript, React Flow, PostgreSQL, Prisma, TailwindCSS, Trigger.dev, Google Gemini [\[🔗\] \[Live Link\]](#)
 - Developed a **scalable visual workflow builder** with **6+ custom nodes** enabling users to create **LLM-powered automation pipelines** through an intuitive drag-and-drop **React Flow canvas interface**.
 - Engineered **6 modular workflow nodes** with **intelligent parallel execution**, reliable background processing, and robust failure propagation using **Trigger.dev**, orchestrating workflows across **4+ normalized database tables**.
 - Integrated **Google Gemini (LLM + vision)**, **FFmpeg-based media processing**, **Clerk authentication**, and **PostgreSQL + Prisma ORM** with real-time execution monitoring, supporting **20+ concurrent workflow runs**.
- **Tesla Clone with AI Assistant** May 2025
Tools: Vite, TypeScript, Node.js, PostgreSQL, TailwindCSS, OpenAI, EmailJS [\[🔗\] \[Live Link\]](#)
 - Developed a library of **15+ reusable, animated UI components** with **TailwindCSS** and **Framer Motion**, intended to accelerate development speed and reduce design-to-deploy time.
 - Built a scalable **Node.js + PostgreSQL backend** implemented to handle up to **5K API requests/day**, with advanced role-based access control and secure JWT authentication for multi-user management.
 - Created **secure, high-performance REST APIs**, integrated **Razorpay** payment gateway, and deployed an **OpenAI-powered chatbot** simulated to automate common queries and reduce manual support load.
- **StudyNotion: Full-Stack E-Learning Platform** Jul 2024
Tools: ReactJS v18, TailwindCSS v3, ExpressJS v4, NodeJS v20, MongoDB v6, Cloudinary, Razorpay [\[🔗\] \[Live Link\]](#)
 - Built **secure role-based dashboards** for **3 user roles** with advanced authentication and fine-grained control.
 - Implemented **20+ REST APIs** integrating **Cloudinary** to manage **100+ media assets** and scalable courses.
 - Optimized **MongoDB queries** and UI rendering, enabling management of **50+ courses** with faster load times and improved UX.

Position of Responsibility

- **Wadla Hackathon 2025** -Managed overall event logistics and participant registrations, ensuring smooth execution of all activities.

Certifications

- **Full Stack Development – CodeHelp**
